

NEOZ

BEAUTY & ELEGANCE CORDLESS TABLE LAMP

2015 COLLECTION

NEOZ

Created by Lighting designers, the award winning NEOZ Cordless Lamps are a rechargeable, portable and dimmable luminaire range designed with the specific requirement of hotels and restaurants in mind.

We have incorporated over 30 years of experience into the design of every NEOZ Cordless Lamp. What distinguishes our lamps is their impeccable craftsmanship, use of appropriate material and most importantly exceptional quality of light. We have developed a warm white LED bulb with a remarkable Colour Rendering Index (CRI) of 95+ ensuring that skin tones, food colours and textures are seen in the best light – critical in the hospitality environment.

To guarantee performance year after year, each NEOZ Cordless Lamp are hand assembled in Sydney using only the highest quality components with up to three year warranty.

EXCEPTIONAL LIGHT QUALITY

The NEOZ LED array provides extended light time, a beautiful warm white with **95+ Colour Rendering Index**. This is visually indistinguishable to the traditional Halogen light source.

EASY CHARGING OPTIONS

Choose from a range of recharging solutions from single base station to a trolley for 48 lamps. Simply place lamp on docking point and lamp charging status is indicated.

LASTING POWER

Powered by Japanese made Sanyo lithium-ion battery cells providing over **300 hours** of light time on a single charge. Select from a range of battery power outputs to suit all users.

NO ADDITIONAL LIGHT REQUIRED

Up to 20x brighter than a tea candle, these are not table markers. Provides enough illumination to read menus by. Select from 3 dimming levels for the perfect light ambience.

SUSTAINABLE DESIGNS

Every component has been designed to be serviceable and replaceable because we know mishaps do happen. We're still servicing lamps from nearly 20 years ago!

CREATED BY LIGHTING DESIGNERS

Designed & assembled in Sydney Australia since 1995, select from 37 unique diffuser designs to control light distribution & over 130 combinations of colours, materials and finishes to achieve the best ambience.

AWARD WINNING

Recognized by the prestigious Red Dot Design Award, International Design Award & Australian International Design Awards for product innovation and design excellence.

SPECIFIED BY LEADING ARCHITECTS & HOTELIERS

Pritzker Prize winning architect Jean Nouvel, Adrian Zecha of Aman Resorts and Rockpool's Neil Perry are just some of the leading lights in their field specifying NEOZ Cordless lamp for their projects and establishments.

NO HASSLE 3 YEARS WARRANTY

Shop with confidence thanks to our dedicated customer service and after sales support. All NEOZ Cordless Lamps are covered by our industry leading 3 year warranty.

INTERNATIONAL DELIVERY & APPROVALS

With clients from over 100 countries worldwide, our experienced team will supply and deliver your order anywhere in the world.

ILLUMINATED FURNITURE

BIRTH OF THE CORDLESS LAMP

It all started back in 1995, we were working on the lighting design for Penfold Wine's Magill Estate restaurant in the Adelaide hills with Sydney architects Allen Jack+Cottier.

A major challenge with restaurant lighting is their need to move tables around and still illuminate them appropriately; we were tasked with designing an electric lamp with no cord to solve this problem. As there were no off-the-shelf battery systems, we designed our own exactly to our requirements. The end result was the Magill cordless table lamp.

MAGILL

First released in 1995, this is the original NEOZ Cordless Lamp designed for the Penfolds Magill Estate Winery. Brush body with part frosted acrylic providing direct downlight and soft ambient side light.

COLLINS / LITTLE COLLINS

The Little Collins comes with opal polymer diffuser and a brushed stainless steel top. The Collins has an additional stainless steel base for increase surface illumination.

WOOD

Available in native Victorian Ash or Western Australian Jarrah body with opal diffuser providing a soft ambient light. A wonderful addition to any outdoor settings.

Magill & Collins are available in the following material / colours

- Stainless Steel
- Antique Bronze (Magill Only)

Wood is available in the following material

- Victorian Ash
- Jarrah

TRUSTED BY CHEFS & RESTAURATEURS

As the most awarded restaurant group in Australia, Neil Perry's Rockpool has been at the forefront of the Australian dining scene for the last two decades.

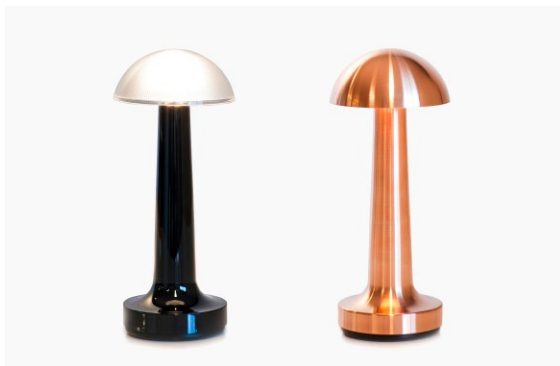

Our association with Rockpool started back in 2010 when we first supplied them with a bespoke cordless lamp design for 'Spice Temple' and 'Rockpool Bar & Grill' in Sydney. This was followed by four further locations in Perth, Melbourne, and Sydney.

With the opening of their latest flagship restaurant in Sydney, we are proud they have again selected a NEOZ Cordless Lamp for their table lighting.

"The battery powered lights gave us the solution for bringing light to the table tops as lighting from above was not an option. I chose the Cooee 2c because it was compact and suited the design but importantly reflected all light down to the table top hence avoiding any glare."

Grant Cheyne - interior architect for Rockpool

COOEE 1 / COOEE 1c

Featuring an internally ribbed dome diffuser providing soft ambient side light and direct downlight. The Cooee 1c features an additional dome reflector giving maximum direct downlight without glare, ideal for table lighting in rooms with views through glass as there is minimal reflection.

COOEE 2 / COOEE 2c

Featuring a cylindrical opal diffuser and top plate providing soft ambient side and downlight. The Cooee 2c features an enclosed diffuser giving maximum direct downlight without glare, ideal for table lighting in rooms with views through glass as there is minimal reflection.

COOEE 3 / COOEE 3c

Featuring an internally ribbed conical diffuser providing soft ambient light. The Cooee 3c features an additional conical reflector giving maximum direct downlight without glare, ideal for table lighting in rooms with views through glass as there is minimal reflection.

Available in the following colours / material combinations

- Anodised Aluminium
- Lacquered Copper
- Black (Baked Enamel on Aluminium)
- Lacquered Brass
- Antique Bronze
- Ivory (Baked Enamel on Aluminium)

“PUTTIN ON THE RITZ”

Originally made for the Ritz hotel London the classical style of the Ritz Cordless Lamp embraces the period's ambience and yet is just at home illuminating the 2014 British fashion awards.

Hot forged from an ingot of raw brass, CNC machined and carefully hand polished, the base is teamed with a handmade parchment shade providing direct downlight and soft diffused sidelight.

RITZ

Handmade parchment shade on a solid forged and polished brass base, this classic cordless lamp provides direct downlight and soft diffused sidelight. The Ritz is available in either 1W LED or 5W Halogen light source.

VICTORIA

Handmade fabric shade on a solid forged and polished brass base, this slim refined cordless lamp provides direct downlight and soft diffused sidelight.

ALBERT

Handmade fabric shade on a solid forged and polished brass base, this slim refined cordless lamp provides direct downlight and soft diffused sidelight.

Available in the following colours / material combinations

AWARD WINNING DESIGN

As a design based manufacturer, we have a long tradition of being a pioneer in the lighting field. From 1983, NEOZ designed custom floor, wall, table and task lights and in the 1990's revolutionised the industry with our award winning Lightrail and Lightwire track systems.

The NEOZ Cordless Lamp range was first developed in 1995, and awarded its first Australian Design Award in 2001, another in 2004 and a third in 2006. A prestigious international 'Red Dot' Design Award followed.

"Fabulous attention to detail, great feature set, beautifully implemented development. This is terrific product design !"

WHY LIGHT QUALITY IS IMPORTANT

Here at NEOZ, we have always believed our cordless lamps should not only look great but also produce an exceptional light output with perfect colour rendering for defining skin tones, food colours and textures.

To measure light quality, the Colour Rendering Index is used to quantify the ability of a light source to reproduce the colours of various objects faithfully in comparison with an ideal or natural light source. The highest possible CRI is 100 when all colours in their spectrum are rendered equally.

Designed to match halogen as closely as possible, NEOZ have developed an energy efficient warm white LED (2700k) with a CRI of 95+. On the highest brightness setting both LED & Halogen are almost identical. When a Halogen bulb is dimmed, its colour temperature grows warmer, while the LED stays the same.

EGG

SMALL / MEDIUM / LARGE

Hand blown frosted glass diffuser in the classic NEOZ Egg shape, providing a beautiful soft ambient light. Available in 3 different sizes.

EGG FRITTED

SMALL / MEDIUM / LARGE

Hand blown fritted glass diffuser, providing a soft ambient light, available in 4 different colours & 3 sizes.

MARGARITA

LITTLE / STANDARD

The Little Margarita features a hand blown asymmetric frosted glass diffuser providing an omni directional soft ambient light. The Margarita comes with an additional stainless steel base.

ARCHITECT'S CHOICE

With its pure minimalistic form, the 'Ice Square' and 'Ice Round' range of NEOZ Cordless Lamps perfectly complement most interior settings and is a firm favourite for many architects and designers.

The famed French architect Jean Nouvel is one of many long-time supporters of our cordless lamps, the Pritzker Prize winner has specified the 'Ice Square 100' for his own personal use and a number of projects including Quai Branly Museum in Paris, Hotel Sofitel Vienna Stephansdom and most recently the Renaissance Barcelona Fira Hotel.

The benefit and versatility of NEOZ Cordless Lamps can clearly be seen at the Les Ombres, a roof top restaurant in Paris that relies on no other lighting for its tables, as a result the view of the neighbouring Eiffel tower and river Seine is uninterrupted.

"All the lamps arrived in Paris on time. The same day they were in the private apartment and he (Jean Nouvel) was very happy with the light. He loves this product."

Charlotte Kruk – Personal Assistant of Jean Nouvel,
Ateliers Jean Nouvel, Paris, France

ICE SQUARE 100 / 85

The Ice Square features a pressed frosted glass diffuser in a square tapered shape providing a soft ambient light, they are available in two sizes.

ICE ROUND 100 / 85

The Ice Round features a pressed frosted glass diffuser in a round tapered cylindrical shape providing a soft ambient light, they are available in two sizes.

A woman in a red traditional Chinese dress (qipao) is working in a restaurant. She is holding a glowing red square lamp, which is the 'Gem Square' product. The lamp is illuminated from within, casting a warm glow. The background shows a dimly lit restaurant with tables and chairs, creating a sophisticated atmosphere.

NEOZ

DESIGNED FOR DEMANDING LIFE OF THE SERVICE INDUSTRY

To guarantee performance night after night, year after year, NEOZ Cordless Lamps only use the highest quality components sourced locally and around the world to our exact specification.

Take the 'Gem Square' for example, we worked closely with our manufacturing partner to perfect the thick wall acrylic polymer diffuser. Evonik's Plexiglas® was selected for its **high strength, good weather resistance** and most importantly its **excellent light diffusion** characteristics.

The finished product is one that is both a delight to look at and will have the durability to stand the test of time.

15 YEARS & COUNTING

Overlooking the breathtaking views of Sydney harbour, Café Sydney is a regular favourite for locals and visiting tourist alike.

The first Neoz Cordless Lamp was put into use in their elegant dining space back in 2001. With over 60 lamps, they upgraded to the V4 System in 2008 to take advantage of the improved conductive charging & docking system.

As with all NEOZ Cordless Lamps they're built to last and all parts are serviceable. To this day Café Sydney's 'Gem 2' lamps are still lighting up their tables against one of the most iconic backdrops in the world!

"They are the most stunning rechargeable orange Lamps and whilst the simplicity of operation and reliability remains, the technology continues to evolve. Thirteen years in use and we are still as thrilled as day one with the fabulous ambience they create."

Jan McKenzie – Director of Operations, Cafe Sydney

GEM 1 RESIN

Australian handcrafted solid resin rectangular shaped diffuser, providing a soft ambient light in four different colours.

GEM 2 RESIN

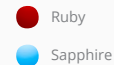

Australian handcrafted solid resin cylindrical shaped diffuser, providing a soft ambient light in four different colours.

MEDUSA

Hand crafted in the Blue Mountains by one of our favourite artists, the Medusa Cordless Lamp with its complex production cycle has a solid resin form that encapsulates a reflector providing glare free table lighting in a unique illuminated form.

EXPERIENCE

31
years

A large graphic of the number 31 years. The digits 3 and 1 are filled with images of various interior lighting fixtures and scenes, including a modern living room, a dining room, and a kitchen.

With over 30 years of design and manufacturing experience at NEOZ, we continue to design, develop and assemble from our factory in Terrey Hills in the beautiful forest district of Sydney.

Our products are sold in every continent around the world with clients from over **100 countries**.

Our dedicated sales and freight team can assist you to arrange a prompt delivery of your order.

PRO 66hrs+

ECO 30hrs+

A Lamp Controller for maximum light operating times with high capacity rechargeable batteries 2600mAh or 5200mAh for extended service life. Available with a choice of high efficient LED array (CRI of 95+) or Halogen bulbs (CRI of 100) for perfect colour rendering.

Compatible with 24 table cordless lamp designs and our illuminated furniture range the PRO option provides up to **310 hours*** of light on a single charge.

UNO 13hrs+

Combines a high performance LED array and a single high capacity Li-ion rechargeable battery cell with proven NEOZ technology.

A slim compact Lamp Controller compatible with 30 table cordless lamp designs and all charging systems. Provides up to **130+ hours*** of light on a single charge.

*At 'low' light setting - See page 34 for full specification

NEOZ

ILLUMINATED FURNITURE

NEOZ Cordless Lighting technology is incorporated into special illuminated furniture designed by Henrietta Gothe-Ellis and Paul Morris for commercial and home use.

Manufactured from durable linear low-density polyethylene (LLDPE) these illuminated furniture are IP51 rated, suitable for both indoor and outdoor use. We offer three type of light source, the standard 65 lumens 1W LED, optional high brightness 300 Lumens 5W LED or remote controlled colour changing 3W RGB LED.

*"Beautiful form and quality design for manufacture.
Exceeds all the judging criteria."*

Judging Panel of Australian International Design Awards - The Aura

CORDLESS FLEXIBILITY

Powered by the award winning NEOZ Cordless Lighting System, use the illuminated furniture wirelessly for up to 56 hours* or operate from the mains power while simultaneously charging the battery.

A 5 unit charging solutions can also be provided upon request.

* Operating on high light output settings (97+ lumens) with 1.2W LED & PRO battery pack.

** Max load for the standard Aura, 200kg for the Aura Mini

COMMERCIAL DURABILITY

Fabricated in rotational moulded UV Stabilised Polyethylene, a durable, weather resistant and easily recycled plastic. These illuminated furniture are light weight & portable (6kg) with a maximum loading of up to 300kg**. Like every NEOZ product the illuminated furniture are covered by our 36 months warranty.

AURA

In collaboration with designer Henrietta Gothe-Ellis of 2DESIGN, the award winning Aura illuminated modular seat utilizes NEOZ PRO Cordless technology to provide a soft ambient glow.

AURA MINI

A mini version of the Aura, an award winning illuminated modular seat, using NEOZ PRO Cordless technology to provide a soft ambient glow.

ROMBI

In collaboration with furniture designer Paul Morris of join, the illuminated modular seat uses the award winning NEOZ PRO Cordless technology to provide a soft ambient glow.
